

MGMT 345 Assignment 2

Internet Scavenger Hunt

Due by 11:59 p.m., 28 September 2006

You must answer the questions in a Microsoft Word document and submit the Word file through the lab's website prior to midnight, 28 Sep. Format the document in a pleasant manner.

Directions: Your answers must include the textual answer to the question, the EXACT URL (web address) where you found the answer, and the search string you typed into the search engine to find the site (for at least 5 of the answers).

1. What does SIU's Computer Support Center in the Information Technology department recommend as the minimum amount of RAM for laptops in its hardware specifications?
2. What rock climbing school in Southern Illinois has published its own book?
3. Where is the official Stephen Colbert Bridge going to be built?
4. SPICE is a major international initiative to support the development of an International Standard for Software Process Assessment. What does SPICE stand for and what is the official website.
5. What is the airport code for Marion, Illinois and how much to fly to St. Louis
6. What is an Internet cookie?
7. On what URL would you find a Bluemountain greeting card for your sister's birthday (assuming you had a sister)? Who owns bluemountain greetings online?
8. Which site allows you to download a lot of "freeware" and "shareware" software?
9. What is the largest capacity IBM brand disk drive that I can put into a personal computer? How much does it cost?
10. You want to find driving instructions for a trip from the SIU College of Business and Administration to the National Center for Atmospheric Research in Boulder, Colorado. On what site can you do this and how many miles is the trip?
