

MGMT 345 Topic Project Deliverables

Due by 11:59 p.m., 21 April 2006

Part A: Research Paper (180 points)

You must save your research paper in an MS Word document (.DOC) and submit the file through the lab's website prior to midnight, 21 April.

Part B: Website (20 points)

You must upload the website component of the project to a publicly accessible web server and submit the location, including the name of the file (the full URL), through the lab's website prior to midnight, 21 April.

There will be separate options available for submitting each component of the project in the assignment dropdown box on the lab's website. Make sure that you have selected the correct option prior to submitting that component (you will have to submit twice: once for the paper, and once for the website).
