

MGMT 345 Sections 1 & 3 Assignment #6

Lab 5 from the O'Leary Access 2002 book.

On Your Own #4, JK Enterprises Form (page AC4.73)

Due 20 November 2003

You must e-mail the solutions to me at ajaken@cba.siu.edu prior to the beginning of the lab on 20 Nov.

On Your Own #4 from Lab 5 builds upon the database you submitted for assignment #5.

Lab 5, On Your Own #4: As database manager for JK Enterprises, you have created a database that includes expense report, department, and expense type/category data – all in separate tables. To make it more efficient, you want to be able to update these tables using a single form. Create a form from the departments table and add the expenses table as a subform. Create a dropdown list box in the expenses subtable for the expense type field from the expense type table. Include a calculated control that displays the total expense amount for the department. Format the form in an appropriate manner.
