MGMT 345 Sections 1 & 3 Assignment #7

Lesson 3 from the FrontPage 2002 book.
Due 3 December 2003

You must publish the site you created on the class' webserver prior to midnight on 3 December. NO LATE SUBMISSIONS WILL BE ACCEPTED

Use the **Corporate Presence Wizard** to create a website for an organization of your choosing. Include **What's New**, **Products/Services**, and **Table of Contents** pages. Include *at least* the **Contact Information** topic on the home page. Include the topics of your choice on the What's New page. Include at least 2 products and/or services on the Products/Services page. Include **Pricing information** for the products and **Capabilities list** for the services. On the table of contents page, **Use bullets for top-level pages**. Use whatever you want for the name of your company and its address. Use your e-mail address for the webmaster and info addresses. Select a theme of your choosing. Edit each of the pages created, adding information where the placeholders for text have been created.

When you publish your website, you will enter **ftp://siu.globaleyes.com** for the location you want to publish your web to. You will need to enter your username and password for the class' website when prompted. You can view your uploaded website in your web browser at **http://siu.globaleyes.com/Students/<*username*>/<*filename*>** where **<*username*>** is your username used to logon to the class' webserver and **<*filename*>** is the name of the homepage of your site (if your homepage is index.htm, you do not need to specify the filename when viewing your site).

You must e-mail me at ajaken@cba.siu.edu with the location of your website once you have completed it and uploaded it to our server.

Note: FrontPage extensions have not been installed on the server you will be uploading your site to. If you include controls or other items which require the installation of FrontPage extensions, they will not work properly once uploaded.
